PARTICIPATING IN YOUR **plan**

There are many benefits to participating in the 42 North Dental, LLC 401(k) Plan. One of the primary benefits is that you will receive help reaching your financial goals for retirement. By reviewing the important information in this guide and visiting Fidelity NetBenefits® at www.401k.com, you can take advantage of what your company and Fidelity have to offer.

When am I eligible for the Plan?

You are eligible to participate in the *401(k) contribution* portion of the Plan if:

- you complete 3 months of service
- you are at least 18 years old
- and you are not:
 - covered by a collective bargaining agreement (unless the agreement specifically provides for you to be covered by the plan)
 - a leased employee
 - a nonresident alien who does not receive any earned income from your Employer

You are eligible to participate in the *matching contribution* portion of the Plan if:

- you complete 6 months of service
- you are at least 18 years old
- and you are not:
 - covered by a collective bargaining agreement (unless the agreement specifically provides for you to be covered by the plan)
 - a leased employee
 - a nonresident alien who does not receive any earned income from your Employer

You are eligible to participate in the *profit sharing contribution* portion of the Plan if:

- you complete 6 months of service
- you are at least 18 years old
- and you are not:
 - covered by a collective bargaining agreement (unless the agreement specifically provides for you to be covered by the plan)
 - a leased employee
 - a nonresident alien who does not receive any earned income from your Employer

How do I enroll?

To enroll, log on to Fidelity NetBenefits® at

www.401k.com. You can also set up your beneficiary information by going to Fidelity NetBenefits® at www.401k.com or calling a Fidelity Representative at 1-800-890-4015 to request a Designation of Beneficiary Form to fill out and return to Fidelity.

Your plan has an automatic enrollment feature. If the automatic enrollment feature applies to you and you do not take action, you will be automatically enrolled at 3%. If the automatic enrollment feature applies to you, you will receive a separate notification indicating when deferrals will begin to be made on your behalf. If you do not select an investment, your Plan Sponsor has directed Fidelity to place your contributions in the Fidelity Investments target date fund that most closely aligns with your projected retirement date based upon your birth year.

If you would prefer to elect not to participate at this time or to specifically elect a contribution rate and/or investment options, please contact Fidelity by logging onto www.401k.com or call 1-800-835-5097.

When is my enrollment effective?

Once you satisfy the 401(k) contribution requirements you will become eligible to participate in the 401(k) contribution portion of the Plan on the first day of the following month.

Once you satisfy the matching requirements you will become eligible to participate in the matching contribution portion of the Plan on the first day of the following month.

Once you satisfy the profit sharing requirements you will become eligible to participate in the profit sharing contribution portion of the Plan on the first day of the following month.

How much can I contribute?

Through automatic payroll deduction, you may contribute between 1% and 100% of your eligible pay on a pretax basis, up to the annual IRS dollar limit (2021 = \$19,500). You may change your deferral percentage as applicable at the beginning of each payroll period.

In addition, you can *automatically* increase your retirement savings plan contributions each year through the Annual Increase Program. To sign up, access the Contributions section within NetBenefits®, or call the plan's toll-free number.

If you are age 50 or over by the end of the taxable year and have reached the annual IRS limit or Plan's maximum contribution limit for the year, you may make additional salary deferral contributions to the Plan up to the IRS Catch Up Provision Limit (2021 = \$6,500).

The Roth 401(k) contribution option is available to you. A Roth 401(k) contribution to your retirement plan allows you to make after-tax contributions and take any associated earnings completely tax free at retirement.

Can I move money from another retirement plan into this one?

You may be permitted to roll over eligible contributions into this Plan from a previous employer's retirement plan. For other eligible account types, please see your Summary Plan Description. Once you have confirmed that your Employer will accept your rollover contribution, you can get started in the "Rollovers" section online. **Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets.**

Does the Company contribute to my account?

The Employer may make a discretionary pretax matching contribution to your account. The amount would be equal to a percentage determined annually by a Board of Directors' Resolution.

To be eligible for discretionary matching contributions you are required to:

- make employee pretax deferral contributions or Roth 401(k) after tax deferral contributions. The plan will

match on the combined total of these contributions up to the matching limit.

- be employed by the Employer as of the last day of the contribution period

For purposes of determining your matching contributions under the Plan, your pretax contributions will not include Age 50 and over Catch-Up Contributions described above.

Your Employer may designate all or a portion of any matching contributions for a Plan Year as "qualified matching contributions" and allocate them to employees to help the Plan pass one or more annually required Internal Revenue Code nondiscrimination test(s). Any such contributions will be allocated to those non-highly compensated Participants eligible to receive the Employer matching contributions described above who made pretax contributions during the Plan Year. Participants are 100% vested in these contributions and may not request a hardship withdrawal of these contributions.

The Employer may make a discretionary profit sharing contribution to only those participants who are eligible under the terms of the plan. Please refer to your employer or Summary Plan Description for more detailed information.

When am I vested?

The term "vesting" refers to the portion of your account balance that you are entitled to under the plan's rules.

You are always 100% vested in your:

- employee pretax account
- rollover account
- Roth 401(k) after tax deferral account
- and any earnings thereon.

Employer profit sharing contributions, matching contributions and earnings will be vested in accordance with the following schedule:

Years of Service for Vesting	Percentage
less than 2	0
2	20
3	40
4	60
5	80
6	100

Can I take a loan from my account?

Although your plan account is intended for your retirement, you may take a loan from your account.

Can I make withdrawals from my account?

Withdrawals from the Plan are generally permitted in the event of termination of employment, retirement, disability, or death. You may also be eligible for a withdrawal in the case of a severe financial hardship as defined by your Plan.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories and not on the actual investment options and their holdings, which may change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of the most recent calendar quarter. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options may vary significantly within each particular investment category, and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decision. The spectrum does not represent actual or implied performance.

ADDITIONAL INVESTMENT **options:**

Target Date funds offer a blend of stocks, bonds, and short-term investments within a single fund. They are designed for investors who don't want to go through the process of picking several funds from the three asset classes but who still want to diversify among stocks, bonds, and short-term investments.

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risk associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

Fidelity BrokerageLink® - BrokerageLink includes investments beyond those in your plan's standard lineup. You should compare investments and share classes that are available in your plan's lineup with those available through BrokerageLink, and determine the available investment and share class that is appropriate for your situation. The plan fiduciary neither evaluates nor monitors the investments available through BrokerageLink. It is your responsibility to ensure that the investments you select are suitable for your situation, including your goals, time horizon, and risk tolerance.

DESCRIPTIONS OF INVESTMENT **options**

MONEY MARKET FUNDS

Fidelity® Government Money Market Fund 0458

Objective:

Seeks as high a level of current income as is consistent with preservation of capital and liquidity.

Strategy:

The Adviser normally invests at least 99.5% of the fund's total assets in cash, U.S. Government securities and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash or government securities). Certain issuers of U.S. Government securities are sponsored or chartered by Congress but their securities are neither issued nor guaranteed by the U.S. Treasury. Investing in compliance with industry-standard regulatory requirements for money market funds for the quality, maturity, liquidity and diversification of investments. The Adviser stresses maintaining a stable \$1.00 share price, liquidity, and income. In addition the Adviser normally invests at least 80% of the fund's assets in U.S. Government securities and repurchase agreements for those securities.

Risk:

You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Fidelity Investments and its affiliates, the fund's sponsor, have no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time. The fund will not impose a fee upon the sale of your shares, nor temporarily suspend your ability to sell shares if the fund's weekly liquid assets fall below 30% of its total assets because of market conditions or other factors. Interest rate increases can cause the price of a money market security to decrease. A decline in the credit quality of an issuer or a provider of credit support or a maturity-shortening structure for a security can cause the price of a money market security to decrease.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who has a low tolerance for investment risk and who wishes to keep the value of his or her investment relatively stable.
- Someone who is seeking to complement his or her bond and stock fund holdings in order to reach a particular asset allocation.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Short-term Redemption Fee Notes:

BOND FUNDS

**Fidelity® Short-Term
Treasury Bond Index
Fund
3049**

Objective:

Seeks a high level of current income in a manner consistent with preservation of capital.

Strategy:

Normally investing at least 80% of assets in securities included in the Bloomberg Barclays 1-5 Year U.S. Treasury Index. Normally maintaining a dollar-weighted average maturity of three years or less. Engaging in transaction that have a leveraging effect on the fund.

Risk:

Bond funds contain interest rate risk (as interest rates rise bond prices usually fall); the risk of issuer default; and inflation risk. Leverage can increase market exposure and magnify investment risk.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking a fund that invests primarily in securities issued by the U.S. government and its agencies or instrumentalities.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Bloomberg Barclays U.S. Treasury 1-5 Year Index is a market value-weighted index of investment-grade fixed-rate public obligations of the U. S. Treasury with maturities between one and five years.

Weighted average maturity (WAM) is the weighted average of all the maturities of the securities held in a fund. WAM for money market funds can be used as a measure of sensitivity to interest rate changes. Generally, the longer the maturity, the greater the sensitivity. WAM for money market funds is based on the dollar-weighted average length of time until principal payments must be paid, taking into account any call options exercised by the issuer and any permissible maturity shortening devices, such as demand features and interest rate resets. For bond funds, WAM can be used as a measure of sensitivity to the markets. Generally, the longer the maturity, the greater the sensitivity. The WAM calculation for bond funds excludes interest rate resets and only takes into account issuer call options if it is probable that the issuer of the instrument will take advantage of such options.

Returns prior to October 4, 2017 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.

Short-term Redemption Fee Notes:

Objective:

Seeks a high level of current income.

Strategy:

**Fidelity® Total Bond
Fund
0820**

Normally investing at least 80% of assets in debt securities of all types and repurchase agreements for those securities. Using the Bloomberg Barclays U.S. Universal Bond Index as a guide in allocating assets across the investment-grade, high yield, and emerging market asset classes. Investing up to 20% of assets in lower-quality debt securities. Managing the fund to have similar overall interest rate risk to the index. Investing in domestic and foreign issuers. Allocating assets across different asset classes, market sectors, and maturities. Analyzing the credit quality of the issuer, the issuer's potential for success, the credit, currency, and economic risks of the security and its issuer, security-specific features, current and potential future valuation, and trading opportunities to select investments. Engaging in transactions that have a leveraging effect on the fund, including investments in derivatives - such as swaps (interest rate, total return, and credit default), options, and futures contracts - and forward-settling securities, to adjust the fund's risk exposure. Investing in Fidelity's central funds (specialized investment vehicles used by Fidelity funds to invest in particular security types or investment disciplines).

Risk:

In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk, liquidity risk, call risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Lower-quality bonds can be more volatile and have greater risk of default than higher-quality bonds. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks, all of which are magnified in emerging markets. Leverage can increase market exposure and magnify investment risk.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Bloomberg Barclays U.S. Universal Index is an unmanaged market value-weighted performance benchmark for the U.S. dollar-denominated bond market, which includes investment-grade, high yield, and emerging market debt securities with maturities of one year or more.

Short-term Redemption Fee Notes:

None

Objective:

The investment seeks to maximize current income; long-term capital appreciation is a secondary objective.

Strategy:

**PIMCO Income Fund
Institutional Class
OEKH**

The fund invests at least 65% of its total assets in a multi-sector portfolio of Fixed Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts or swap agreements. It may invest up to 50% of its total assets in high yield securities rated below investment grade by Moody's, S&P or Fitch, or if unrated, as determined by PIMCO.

Risk:

The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone looking for a fund investing in a mix of bonds that range from conservative to high risk and who can tolerate the risks associated with fixed-income investments.

DOMESTIC EQUITY FUNDS

**Fidelity® 500 Index
Fund
2328**

Objective:

Seeks to provide investment results that correspond to the total return (i.e., the combination of capital changes and income) performance of common stocks publicly traded in the United States.

Strategy:

Normally investing at least 80% of assets in common stocks included in the S&P 500 Index, which broadly represents the performance of common stocks publicly traded in the United States.

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.

- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.

Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.

**Fidelity® Blue Chip
Growth Fund - Class K
2078****Objective:**

Seeks growth of capital over the long term.

Strategy:

Normally investing at least 80% of assets in blue chip companies (companies that, in FMR's view, are well-known, well-established and well-capitalized), which generally have large or medium market capitalizations. Investing in companies that FMR believes have above-average growth potential (stocks of these companies are often called "growth" stocks). Normally investing primarily in common stocks.

Risk:

The value of equity securities fluctuates in response to issuer, political, market, and economic developments. In the short term, equity prices can fluctuate dramatically in response to these developments. Different parts of the market and different types of equity securities can react differently to these developments. For example, 'growth' stocks can react differently from 'value' stocks. Foreign securities, foreign currencies, and securities issued by U.S. entities with substantial foreign operations can involve additional risks. You may have a gain or loss when you sell your shares.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

On May 9, 2008, an initial offering of the retirement (K) class took place. Returns and expenses prior to that date are those of the non-K, non-advisor class. Had K class expenses been reflected in the returns shown, total returns would have been higher.

**Fidelity® Mid Cap Index
Fund
2352**

Objective:

The fund seeks to provide investment results that correspond to the total return of stocks of mid-capitalization United States companies.

Strategy:

Normally investing at least 80% of assets in securities included in the Russell Midcap Index. Lending securities to earn income for the fund.

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Investments in smaller companies may involve greater risks than those in larger, more well known companies.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Russell Mid Cap Index is an unmanaged index that measures the performance of the 800 smallest companies in the Russell 1000 Index, which represent approximately 26% of the total market capitalization of the Russell 1000 Index.

Short-term Redemption Fee Notes:

None

**Fidelity® Small Cap
Index Fund
2358**

Objective:

The fund seeks to provide investment results that correspond to the total return of stocks of small-capitalization United States companies.

Strategy:

Normally investing at least 80% of assets in securities included in the Russell 2000 Index. Lending securities to earn income for the fund.

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Investments in smaller companies may involve greater risks than those in larger, more well known companies.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

**Janus Henderson Small
Cap Value Fund Class N
OY7B**

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Russell 2000[®] Index is an unmanaged market capitalization weighted index measuring the performance of the smallest 2,000 companies in the Russell 3000 index.

Short-term Redemption Fee Notes:

None

Objective:

The investment seeks capital appreciation.

Strategy:

The fund pursues its investment objective by investing primarily in the common stocks of small companies whose stock prices are believed to be undervalued by the fund's portfolio managers. It invests, under normal circumstances, at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of small companies whose market capitalization, at the time of initial purchase, is less than the 12-month average of the maximum market capitalization for companies included in the Russell 2000[®] Value Index. The fund may invest up to 20% of its net assets in cash or similar investments.

Risk:

The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Russell 2000[®] Value Index is an unmanaged market capitalization-weighted index of value-oriented stocks of U.S. domiciled companies that are included in the Russell 2000 Index. Value-oriented stocks tend to have lower price-to-book ratios and lower forecasted growth values.

Objective:

The investment seeks long-term growth of capital.

Strategy:

The fund pursues its investment objective by investing at least 50% of its equity assets in small- and medium-sized companies. It may also invest in larger companies with strong growth potential. Small- and medium-sized companies are defined by the portfolio managers as those companies whose market capitalization falls within the range of companies in the Russell 2500[®] Growth Index at the time of initial purchase. The fund may also invest in foreign securities, which may include investments in emerging markets.

Risk:

The securities of smaller, less well-known companies can be more volatile than those of larger companies. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Russell 2500 Growth Index is a market capitalization-weighted index designed to measure the performance of the small to mid-cap growth segment of the U.S. equity market. It includes those Russell 2500 Index companies with higher price-to-book ratios and higher forecasted growth rates.

Objective:

The investment seeks long-term growth of capital.

Strategy:

The Portfolio pursues its investment objective by investing primarily in common stocks selected for their growth potential, and normally invests at least 50% of its equity assets in medium-sized companies. Medium-sized companies are those whose market capitalization falls within the range of companies in the Russell Midcap[®] Growth Index. Market capitalization is a commonly used measure of the size and value of a company. It may also invest in foreign securities, which may include investments in emerging markets.

Risk:

Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. **MFS Mid Cap Value
Fund Class R6
OSR1**

Objective:

The investment seeks capital appreciation.

Strategy:

The fund normally invests at least 80% of the fund's net assets in issuers with medium market capitalizations. The adviser generally defines medium market capitalization issuers as issuers with market capitalizations similar to those of issuers included in the Russell Midcap[®] Value Index over the last 13 months at the time of purchase. It normally invests the fund's assets primarily in equity securities.

Risk:

Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. SPECIALTY FUNDS

**Principal Real Estate
Securities Fund Class
R-6
OI7X**

Objective:

The investment seeks to generate a total return.

Strategy:

Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies principally engaged in the real estate industry at the time of purchase. It invests in value equity securities, an investment strategy that emphasizes buying securities that appear to be undervalued. The fund concentrates its investments (invest more than 25% of its net assets) in securities in the real estate industry. It is non-diversified.

Risk:

Real Estate is a cyclical industry that is sensitive to interest rates, economic conditions (both nationally and locally), property tax rates, and other factors. Changes in real estate values or economic downturns can have a significant negative effect on issuers in the real estate industry. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Sector funds can be more volatile because of their narrow concentration in a specific industry. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is willing to accept the potentially lower diversification and higher risks associated with investing in a particular industry or sector.

TARGET DATE FUNDS

Fidelity Freedom® 2005 Objective:

Fund - Class K

3020

Seeks high total return until its target retirement date. Thereafter, the fund's objective will be to seek high current income and, as a secondary objective, capital appreciation.

Strategy:

Designed for investors who anticipate retiring in or within a few years of the fund's target retirement year at or around age 65. Investing in a combination of Fidelity domestic equity funds, international equity funds, bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a "neutral" asset allocation strategy that adjusts over time until it reaches an allocation similar to that of the Freedom Income Fund approximately 10 to 19 years after the target year. Ultimately, the fund will merge with the Freedom Income Fund. Fidelity Management & Research Company LLC (the Adviser) may modify the fund's neutral asset allocations from time to time when in the interests of investors. Buying and selling futures contracts (both long and short positions) in an effort to manage cash flows efficiently, remain fully invested, or facilitate asset allocation. Through an active asset allocation strategy, the Adviser may increase or decrease asset class exposures relative to the neutral asset allocations by up to 10 percentage points for equity, bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term.

Risk:

Investment performance of the Fidelity Freedom Fund products depends on the performance of the underlying investment options and on the proportion of the assets invested in each underlying investment option. The investment risk of each Fidelity Freedom Fund changes over time as its asset allocation changes. These risks are subject to the asset allocation decisions of the Investment Adviser. Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The funds are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, commodity-linked and foreign securities. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

Short-term Redemption Fee: 0.00

Who may want to invest:

Fidelity Management & Research Company LLC (the Adviser) may modify the fund's neutral asset allocations from time to time when in the interests of investors. Buying and selling futures contracts (both long and short positions) in an effort to manage cash flows efficiently, remain fully invested, or facilitate asset allocation. Through an active asset allocation strategy, the Adviser may increase or decrease neutral asset class exposures by up to 10 percentage points for equity, bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term.

Risk:

Investment performance of the Fidelity Freedom Fund products depends on the performance of the underlying investment options and on the proportion of the assets invested in each underlying investment option. The investment risk of each Fidelity Freedom Fund changes over time as its asset allocation changes. These risks are subject to the asset allocation decisions of the Investment Adviser. Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The funds are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, commodity-linked and foreign securities. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Objective:

Seeks high total return until its target retirement date. Thereafter, the fund's objective will be to seek high current income and, as a secondary objective, capital appreciation.

Strategy:

Designed for investors who anticipate retiring in or within a few years of the fund's target retirement year at or around age 65. Investing in a combination of Fidelity domestic equity funds, international equity funds, bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a "neutral" asset allocation strategy that adjusts over time until it reaches an allocation similar to that of the Freedom Income Fund approximately 10 to 19 years after the target year. Ultimately, the fund will merge with the Freedom Income Fund. Fidelity Management & Research Company LLC (the Adviser) may modify the fund's neutral asset allocations from time to time when in the interests of investors. Strategy:

Investing in a combination of Fidelity domestic equity funds, international equity funds, bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a stable "neutral" asset allocation strategy (approximately 11% in domestic equity funds, 8% in international funds, 59% in bond funds, and 22% in short-term funds). Fidelity Management & Research Company LLC (the Adviser) may modify the fund's neutral asset allocations from time to time when in the interests of shareholders. The Adviser has begun transitioning fund assets based on the revised asset allocation strategy for the fund that is expected to be completed by mid-2020. Buying and selling futures contracts (both long and short positions) in an effort to manage cash flows efficiently, remain fully invested, or facilitate asset allocation. Through an active asset allocation strategy, the Adviser may increase or decrease asset class exposures relative to the neutral asset allocations by up to 10 percentage points for equity, bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term.

Risk:

The fund is subject to risks resulting from the asset allocation decisions of the Investment Adviser. Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The fund is subject to the volatility of the financial markets, including that of equity and fixed income investments. Fixed income investments entail issuer default and credit risk, inflation risk, and interest rate risk (as interest rates rise, bond prices usually fall and vice versa). This effect is usually more pronounced for longer-term securities. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

Plan Name (i.e., "the Plan"): 42 North Dental, LLC 401(k) Plan

Plan#: 85724

Incoming Rollover Instructions

"Rolling over" money into the Plan is a three-step process. Please follow these instructions to ensure that this process is completed in a timely and accurate manner. *Please Note:* Failure to follow these instructions may result in a delay in the processing of your request and may jeopardize your ability to roll over your distribution.

Step 1. Request your distribution

Request a direct rollover distribution from your previous eligible retirement plan. See the Incoming Rollover Contribution Application for a list of the types of plans or accounts from which rollovers may be made to your employer's plan. Please keep in mind that you can only rollover your Roth 401(k) or After-tax contributions into the plan if your plan allows for these types of rollovers. Check with your Benefits Department to see if these types of rollovers are allowed. There are two distribution check payable options:

Option 1.

The check can be made payable to Fidelity Investments Institutional Operations Company LLC (or FIIOC), for the benefit of (YOUR NAME). The check must be from the distributing trustee or custodian. (Personal checks are not acceptable.) **Note:** This type of distribution avoids automatic income tax withholding. Also, it avoids the possible 10% early withdrawal penalty if you are under the age of 59 1/2.

Option 2.

If the distribution was originally made payable directly to you, you must send your rollover contribution to Fidelity via a certified check or money order only for the amount you are rolling over payable to FIIOC. (Personal checks are not acceptable.) **Note:** If your distribution is initially received as a check made payable to you, your rollover must be completed within 60 days of receipt of the distribution. Your previous administrator will be required to withhold income taxes. As a result, you will not be able to roll over 100% of your eligible distribution unless you have extra savings available to make up the amount withheld. You must also roll over that amount within 60 days of receipt of your distribution. If you do not make up the amount withheld, that amount will be considered a withdrawal from the previous program and the taxable portion will be subject to ordinary income taxes and possibly a 10% early withdrawal penalty.

Fidelity does not accept wire transfers of funds. You must request a CHECK from your previous plan or IRA. The check should be mailed directly to you. Once you have received the check, please follow the directions in Step 2.

Step 2. Initiate your rollover request

Please log on to www.401k.com to initiate your rollover request or complete the Incoming Rollover Contribution Application. Please be sure to complete all items, and sign the form if indicated.

Please Note: This rollover contribution will be invested based on the investment elections you have on file for rollover contributions to the Plan. If you have not previously made investment elections for your rollover contribution please log on to NetBenefits® at www.401k.com to do so. Otherwise, it will be invested based on your elections for elective deferral contributions. If you have not made investment elections for either rollover or deferral contributions, this amount will be invested in the Plan-designated default investment option. If you wish to make investment elections for your rollover contribution, please do so by contacting Fidelity Investments prior to submitting this form.

If you are not sure of the plan type that you are rolling out of, please contact your previous Plan Sponsor or IRA custodian for verification. Some plan types are not eligible for rollover.

You should make a copy of the check and the Incoming Rollover Contribution Application for your records.

Step 3. Mail the information

Mail (1) the Incoming Rollover Contribution Application and (2) the check to:

FIRST CLASS MAIL WITH STAMP:

Fidelity Investments Client Service Operations
P.O. Box 770003 Cincinnati, OH 45277-0065

Overnight Address:

Fidelity Investments
Client Service Operations (KC1F-L)
100 Crosby Parkway Covington, KY 41015

Please include all the information requested. Incomplete forms and the accompanying check will be returned to you and may jeopardize your ability to roll over your distribution.

Once your contribution is accepted into the Plan, you can log on to Fidelity NetBenefits® at www.401k.com to view your rollover contribution and investment election(s). Please allow at least seven business days for processing. If you have any questions about rollover contributions, call **1-800-835-5097**. Please be sure you have beneficiary information for the Plan on file.

Acceptable rollover funds

The Plan will accept taxable* money from the following types of plans: 401(a) plans (e.g., 401(k)); 403(a) plans; governmental 457(b) plans; 403(b) plans (e.g., plans of tax-exempt organizations); conduit IRAs (rollover IRAs); non-conduit IRAs (traditional IRAs, Simplified Employee Pension plans (SEP-IRAs)) and "SIMPLE" IRA distributions made more than two years from the date you first participated in the SIMPLE IRA; distributions of taxable monies made to you as (1) a Spousal beneficiary from a current or former spouse from these types of plans, or (2) an alternate payee pursuant to a qualified domestic relations order (QDRO). In addition, the Plan will accept the following money types if indicated below: Roth 401(k), Roth 403(b), or Roth 457(b); After-tax contributions from 401(a) and 403(a) plans.

*Taxable money is defined as pretax contributions (employee and employer), earnings on pretax contributions, and taxable earnings on after-tax contributions from your previous employer's plan.

Please note: Making rollover contributions to the Plan that consist of assets other than qualified 401(a), or 403(a) plan assets, or conduit IRA (rollover IRA) assets, may result in the loss of capital gains or 10-year income-averaging tax treatment associated with lump sum distributions from the Plan. If you may be eligible for this special tax treatment, you should consult your tax adviser and carefully consider the impact of making a rollover contribution to the Plan. Please talk to your tax adviser for additional information and review the special tax notice to determine if you're eligible.

Unacceptable rollover sources

The Plan cannot accept money from the following sources: rollovers from nonspousal beneficiary accounts, payments over a life expectancy or a period of 10 or more years, or mandatory age 72* distributions. Also unacceptable are Roth IRAs, HSAs and Coverdell Education Savings Accounts (CESAs). In-kind distributions of employer stock are not acceptable; therefore, stock must be sold and the proceeds (including any appreciation realized through the date of distribution) may be rolled over.

*The change in the MRD age requirement from 70½ to 72 only applies to individuals who turn 70½ on or after January 1, 2020. Please speak with your tax advisor regarding the impact of this change on future MRDs.

Section Three: Investment Elections

I direct Fidelity to invest my rollover contribution into my current investment mix applicable to rollover contributions. If I have not previously made investment elections for the rollover contribution it will be invested based on my elections for elective deferral contributions. If I have not selected an investment mix on my own via NetBenefits® or by telephone, I understand that this rollover contribution will be invested in the Plan's default investment option as directed by my employer.

Section Four: Participant Certification

I authorize the investment election for this rollover and acknowledge that I have received information detailing my available investment options. I acknowledge that my rollover contribution will be invested in accordance with section three of this form.

I certify that this rollover amount is composed ONLY of money from acceptable sources listed under Section Two, and I have completed the information regarding the source of this money to the best of my knowledge. Also, if the distribution check was made payable to me, I understand that this rollover must be received and deposited to my account within 60 days of receipt of the distribution. I understand that, once invested, these monies will be subject to the terms that govern the Plan.
