

Your student loan benefits!

Do you have student loans? Check out your new student loan benefits! 42 North Dental has partnered with CommonBond to help you tackle the challenges surrounding student loans. CommonBond's Evaluation Tool is an online diagnostic that provides solution personalized for your individual goals and financial needs. Use the tool to help manage your existing debt as well as save for future education costs. You will also have access to their award winning Care team to assist you throughout the process and help you use your benefits!

Your new benefits

CURRENTLY HAVE STUDENT LOANS?

The Evaluation Tool provides actionable guidance for managing your debt to either lower your monthly payment or pay down your debt faster. Through a few simple questions and inputting your loan information, the tool is able to show you not only what you qualify for, but you can do a side by side comparison to decide which option is really best for you.

NEED TO SAVE FOR FUTURE EDUCATION?

The 529 Planning resource will educate you on how to save for the future education of yourself or a loved one. Learn more about the real cost of college, what a 529 savings plan is, how it works, and how to get started.

YOUR PARTICIPATION MAKES AN IMPACT

When you complete the evaluation tool, CommonBond makes a donation towards the cost of a child's education in the developing world through our nonprofit partner Pencils of Promise.

WANT TO SHARE WITH A FAMILY MEMBER?

In the tool you have the ability to send invitations to friends and family members so that they can take advantage of it as well!
